Books reviewed
Batie, Sandra S. (and Craig C. Cox): Soil and Water Quality: An Agenda for Agriculture, 456
Cressman, David R.: Agriculture in the City's Countryside by Christopher R. Bryant and Thomas R.R. Johnson, 254
Dawson, Alexandra D.: Natural Resources Policy and Law: Trends and Directions by Lawrence J. MacDonald and Sarah F. Bates (eds.), 463
Dregne, H.E.: The Struggle for the Land: Indigenous Insights and Industrial Empires in the Semiarid World by Paul A. Olson (ed.), 54
Painter, Kathleen: America's Water: Federal Roles and Responsibilities by Peter Rogers, 560
Robinson, Ann: Integrating Sustainable Agriculture, Ecology, and Environmental Policy by Richard K. Olson (ed.), 356
Steiner, Frederick R.: Regreening the National Parks by Michael Frome, 164
Bosch, Darrell. See Pease, James R.
Brandle, James R. See Johnson, Ron J.
Brenner, Mark. See Whitmore, Thomas J.
Brodahl, M.K. See Follet, R.F.
Brodahl, M.K. See Wylie, B.K.
Bruner, Stephani Polsley. See Snyder, Doug
Bullock, D.G. See Kitur, B.K.
Caldwell, Wayne J.: Consideration of the environment: An approach for rural planning and development, 324
Carlson, John E. (Barbara Schnabel, Curtis E. Beus, and Don A. Dillman): Changes in soil conservation attitudes, 493
Chang, Ching-Cheng (and Jay D. Atwood, Klaus Alt, and Bruce A. McCarl): Economic impacts of erosion management measures in coastal drainage basins, 606
Chow, T.L. See Mellerowicz, K.T.
Christensen, Brian. See Fawcett, Richard S.
Cihacek, L.J. (and J.B. Swan): Effects of erosion on soil chemical properties, 259
Clark, A.J. See Lichtenberg, Erik
Clark, Richard T. See Taylor, C.R.

Climate
and erosion and their effects on corn yield, 272
Cobourn, John: Cleaning up urban stormwater: The storm drain stenciling approach, 312
Colletti, Joe P. See Robertson, Robert A.

Conservation
and changes in attitudes and behavior, 493
and coalition building for managing resources, 343
and rehabilitating terraced lands in Lebanon, 106
and water quality impacts, 59
a profile of conservationist Hans Hurni, 228
a wholistic interpretation of (commentary), 231
economics of integrated conservation farming system, 601
impact on wind erosion in High Plains of Texas, 430
soil conservation planning at the watershed level using USLE and GIS, 194
understanding farm-level conservation (commentary), 232

Conservation compliance
and alternative tillage systems, 394
interview with Paul Johnson, SCS Chief, 518

Conservation education
and urban stormwater/storm drain pollution, 312

Conservation Reserve Program

and aggregate economic effects, 473
and its effect on soil organic carbon, 488
and management considerations for returning land to production, 420
comparing the 1985 and 1990 CRPs in the West, 484
erosion and sedimentation as affected by CRP enrollment, 407
interview with Paul Johnson, SCS Chief, 518
Minnesota's alternative to federal land retirement programs, 426
"New roles for long-term cropland diversion" (commentary), 438
results of a CRP survey in Montana, 284
survey of management practices on reserve acres and grassed waterways, 612

Conservation tillage
comparing conventional and conservation tillage cotton, 82
effect of on the distribution of organic C and inorganic N in soil, 201
effect on growth and yields of corn, 266
effect on yield, economics, and conservation compliance, 394
effects on physical properties of a clayey coastal plain soil, 276
evaluating tillage and cropping systems in Saskatchewan, 387
impact of on pesticide runoff into surface water, 126
Cooke, R.A. See Mostaghimi, S.
Coughlin, Robert E. (and James R. Pease, Frederick R. Steiner, Lyssa Papazian, Joyce Ann Pressley, Adam Sussman, and John C. Leach): The status of state and local LESA programs, 6
Cox, Craig A. See Batie, Sandra S.
Cressman, David R.: Agriculture in the City's Countryside by Christopher R. Bryant and Thomas R.R. Johnson (book review), 254

Cropping practices
and water storage efficiency of preplant irrigation, 72
comparing conventional and conservation tillage cotton, 82
crop C contribution to soil using different cropping and livestock systems, 205
effect of on the distribution of organic C and inorganic N in soil, 201
evaluating tillage and cropping systems in Saskatchewan, 387
Davie, D. Kevin (and Christopher L. Lant): The effect of CRP enrollment on sediment loads in two southern Illinois streams, 407
Davis, Craig. See Yi, Gi-Chul
Dawson, Alexandra D.: Natural Resources Policy and Law: Trends and Directions by Lawrence J. MacDonald and Sarah F. Bates (eds.) (book review), 463
Decker, A.M. See Lichtenberg, Erik

Dubois, D. See Wylie, B.K.
Duesterhaus, Richard L.: Looking ahead to future National Resource Inventories (commentary), 517
Durbin, Hon. Richard J.: The elements of a successful farm bill (commentary), 339
Ebelhar, S.A. See Kitur, B.K.

Economics
and aggregate effects of the CRP, 473
and integrated conservation farming system, 601
and the environment in rural development, 324
economics of integrated conservation farming system, 601
effect of different tillage systems on, 394
understanding farm-level conservation (commentary), 232
using NLEAP to simulate residual soil nitrate, 375

Education
and urban stormwater/storm drain pollution, 312
for growth management and farmland preservation, 333
Eghball, Bahman (and J.F. Power): Beef cattle feedlot manure management, 113
Eghball, Bahman (and Lloyd N. Mielke, Dennis L. McCallister, and John W. Doran): Distribution of organic carbon and inorganic nitrogen, 201
Eghball, Bahman. See Power, J.F.
Ego, C.L. See Shaffer, M.J.
Engstrom, Daniel R. See Whitmore, Thomas J.

Environment
and the 1992 National Resources Inventory, 521
and the environment in rural development, 324
communication between agricultural and environmental interests (commentary), 136
developing a monitoring project, 221
urban stormwater/storm drain pollution prevention program, 312
Epp, D.J. See Hamlett, J.M.
Epplin, Francis M. (and Ghazi A. Al-Sakkaf, and Thomas F. Peeper): Impacts of alternative tillage methods for continuous wheat on grain yield and economies: Implications for conservation compliance, 394

Erosion
and climate and their effects on corn yield, 272

and computing the wind erodible fraction of soils, 183
and controlling after major fire, 535
and effect on crop yield in Indiana, 597
and its effect on corn yield in the North Central U.S., 77
and its effect on soil chemical properties, 259
and productivity relationships, 586
and soil loss from eroded soil phases, 591
as affected by CRP enrollment, 407
comparing different erosion control measures, 615
economic impacts of coastal erosion management measures, 606
estimating with software using Imhoff cone volumes, 400
human-induced accelerated rates in China, 67
impacts on recreation, 576
sedimentation basins for urban areas and construction sites, 317
Ervin, David E.: Soil and water conservation down on the farm, 232
Ervin, R.T. (and J.A. Lee): Impact of conservation practices on airborne dust in the southern High Plains of Texas, 430
Evans, P.W. See Zartman, R.E.
Evans, R.O. See Skaggs, R.W.

Farmland protection
agricultural land quality and urbanization, 367
and land-use regulation (legal commentary), 144, 440
and local LESA programs, 6
and public education, 333
and the environment in rural development, 324
Fawcett, Richard S. (and Brian Christensen and Dennis P. Tierney): The impact of conservation tillage on pesticide runoff into surface water, 126
Fennessey, L.A.J. (and A.R. Jarrett): The dirt in the hole: A review of sedimentation basin for urban areas and construction sites, 317
Fenton, T.E. See Olson, K.R.

Fertilizers
and water quality impacts, 59
comparing runoff of in conventional and conservation tillage cotton, 82
crop C contribution to soil using different cropping and livestock systems, 205

Flooding
and floodplain management, 528
soil penetrometer readings on flooded soils, 542

Floodplain management
and analysis of the Galloway Report, 528
and stormwater management, 14
Foerster, J.A. See Sojka, R.E.
Follet, R.F. (and M.J. Shaffer, M.K. Brodahl, and G.A. Reichman): NLEAP simulation of residual soil nitrate for irrigated and nonirrigated corn, 375

Food Security Act
"Prepare for the '95 farm bill debate" (commentary), 416
"Take your seats for the '95 farm bill" (commentary), 418
the elements of a successful farm bill (commentary), 339

Forestry
forest cover and stream flow in small watersheds, 382
Forrest, Carol L. (and Michael V. Harding): Erosion and sediment control: Preventing additional disasters after the Southern California fires, 535
Foster, G.R. See Renard, K.G.
Friend, Duane: Soil penetrometer readings on flooded soils in west central Illinois, 542
Fryrear, D.W. (and C.A. Krammes, D.L. Williamson, and T.M. Zobeck): Computing the wind erodible fraction of soils, 183
Gebhart, D.L.: The CRP increases soil organic carbon, 488

Geographic Information Systems
and Ohio's wetlands inventory, 23
predicting nitrate leaching using NLEAP and GIS, 288
soil conservation planning at the watershed level using USLE and GIS, 194
Ghanem, I. See Mellerowicz, K.T.
Gidley, T.M. See Mostaghimi, S.
Goebel, J. Jeffrey. See Kellogg, Robert L.
Goss, Don W. See Kellogg, Robert L.

Groundwater
estimating depth to claypan, 572
potential for nitrate leaching of agrichemicals, 294
predicting nitrate leaching using NLEAP and GIS, 288
Guy, Donald C. See Holloway, James E.

Ever-Changing Resources.

New home mortgage...investment properties...career advancement... growing family...college tuition...

all of these things affect the way you should plan your insurance portfolio. That's why Life Insurance Company of North America (a CIGNA company) put together this Term Life package endorsed by the Soil And Water Conservation Society with benefits up to $250,000. And we're offering pure, no-frills term insurance because it gives you the flexibility to acquire coverage, in the amounts you want, when you need it — all at a price you'll appreciate.
